Programming Languages

Python Golang C/C++

HTML/CSS Javascript

Typescript

Software/Frameworks

Selenium Django

GraphQL

Google Firestore

Argo CD React MERN

Education

Carnegie Mellon University

08/2018 - 12/2022

Bachelor's of Science in Electrical and Computer Engineering

- Structure and Design of Digital Systems
- Web App Development
- Principles of Imperative Computing
- Logic Design and Verification
- Intro to Embedded Systems
- Fundamentals of Embedded Control

Experience

Bloomberg L.P.

07/2024 - Present

Software Engineer

- Enhance and maintain the {SSOX <GO>} application on the Bloomberg Terminal, enabling seamless negotiation and execution of thousands of sell-side fixed-income trades daily.

Boeing

03/2023 - 04/2024

Software Engineer

- Developed automated UI integration tests using Selenium for web applications which significantly improved code base test coverage
- Developed Virtual Machine devices for the High Fidelity Digital Twin Program

Intuit

05/2021 - 08/2022

Software Engineering Intern

- Developed a containerized GraphQL Proxy Service using Typescript, Docker, and Redis for optimization, that protects API services from potentially malicious incoming requests using rate limiting and static query analysis
- Developed new feature for the ArgoCD project that allows non-admin users to safely create Applications and Projects for themselves within a Kubernetes cluster.

23andMe

07/2020 - 09/2020

Software Engineering Intern

- Developed user interface for internal hosting service with the Application Infrastructure Team
- Built Flask app that uses Flask API endpoints to display information about applications (statuses, teams, owners, authentication tokens, etc.)

Projects

ArgoCD AppSource Controller

05/2021 - 08/2021

Golang Kubernetes ArgoCD

- Kubernetes Custom Resource Definitions that gives under-privileged users permission from admins to create ArgoCD applications automatically
- Supports multiple ArgoCD Project "profiles" that limit what actions sub-users can make with their application.
- Adopted as a part of the argo-proj-labs collection of vetted community projects
